

When cleaning tiled roofs, there is a possibility that there will be some minor water ingress due to the nature of pressure cleaning tiles and underneath tiles. Whilst every effort is made to ensure that there is no significant water entry, all precautions should be taken by the Client to ensure no items of any value are left in the roof area. Any electrical items should be covered to ensure no water can affect them. WeatherpRoof Restorations takes no responsibility for any loss or damage suffered or caused as a result of minor water ingress as described herein.
